

MOSS COLLECTION

FOR IMMEDIATE RELEASE - New York, June 16, 2016: Louise Olsen and Stephen Ormandy launch their newest collection, *Moss*, just in time for fall.

Moss is inspired by the dewy undergrowth of an autumn morning, with a wonderful palette of lush greens reminiscent of ancient mosses that carpet forest floors and thrive on the rich soils that lie underfoot. Hues are balanced, restful and soothing, combined with jewelry and homewares forms inspired by earth, rocks and flowers.

Moss introduces new classic brass jewelry and homewares, rendered in shapes that connect directly with nature. New Organic Ball earrings and necklaces, for example, draw on dewdrops for inspiration and paperweights evoke the smooth contours of stones.

Says Creative Director Louise Olsen of the collection, "We are constantly inspired by nature and the time it takes her to grow and change and perfect. We're immensely proud of some of the new castings that are coming through in shades of green and dark horn swirl, to which we've added accents of gold and brass in this new collection of classic pieces."

Moss will be available in Dinosaur Designs' New York, London and online, stores from August 15, 2016.

About Dinosaur Designs

Established in 1985 and headed by Louise Olsen and Stephen Ormandy, Dinosaur Designs continues to use their distinctive way of looking at the world to produce an extensive range of handmade jewelry and homewares, launching two new collections each year. Each piece of Dinosaur Designs is hand-sculpted in their Sydney studio, ensuring that their sustainable philosophy is maintained.

Dinosaur Designs are stocked in stores and galleries all over the world and in eight Dinosaur Designs stores located in the UK, New York, Australia, and online at www.dinosaurdesigns.com.
